

Statement of Purpose

"I am the master of my fate, I am the captain of my soul"

I believe that I have the power to chart my destiny. My dedication towards the achievement of my academic and sporting goals is rivaled only by my will to succeed in every endeavor taken up by me. My focus is fueled by my willpower to achieve excellence. I am energetic and enthusiastic by nature and channel this into the various activities I participate in. I received the Principal's awards, secured a 90.67% in 2014 (ICSE Board Exam) and won the Sahodaya (Inter-state) football tournament in 2015. I have anchored some events in my school and participated in various quiz competitions.

"Goals are the fuel in the furnace of achievement"

My short term goal is to build a sound academic foundation as well as excel in sports. I wish to build my public speaking, debating and presentation skills as well as fulfill my social responsibilities. To develop my personality and mature into a sound individual. After honing these skills and understanding business management, I would like to contribute to organization's success and build my career in the corporate world. My long term goal is to become a global CEO of a multinational company.

My reasons for joining Cardiff Metropolitan University is to be a part of the experiential learning process. The British education system encourages the individual to develop creativity, sharpen analytical skills and imbibe values within the student. I truly believe that the BBA programme is the right one for me and would help me in achieving my goals. Universal Business School is led by Global Multinational CEOs and has extensive corporate linkages. I am looking forward to learning from these leaders of business.
